

Third Eye Song

Githa Ben-David 26th April 2026 ©

1.You are the violet color
of a rainbow
Intuitive symbols giving
answers in a dream

2.You are protecting me
and create a life flow
Initiate all my cells
with chi in its stream

Chorus:

I close my eyes to see clear
Miraculous images, healing appear

3.God save me when I'm down
and blinded by duality
All what I have to do
is reaching out for you

4.The veil opens up when I sing through the nose in Hung Song
All clouds vanish
and my eyes can see what is true

Chorus:

I close my eyes to see clear
Miraculous images, healing appear

Throat Song

Githa Ben-David 20th of April 2026 ©

The throat is a bridge
between mind and heart
Body and soul-----

I listen for the inner voice

The fifth, the Pa,
the father role

I'm listening for inspiration
the true voice
communication
Purify my flute
and sing my truth
follow Gods voice in me
with full dedication
